## COVID-19 Coronavirus Policy

Due to the COVID-19 (coronavirus) pandemic, we are taking proactive steps to address several business concerns. First and foremost, we want to maintain a safe workplace and adopt practices protecting the health of students, employees, visitors and others. We also want to ensure the continuity of business operations during this pandemic. For that reason, we are conducting all training via our online platform until further notice to eliminate the risk of exposure to staff and students in the classroom. The campus is currently under access control status and is only accessible to permitted Administrative, maintenance and security staff who are expected to follow CDC guidance (<https://www.cdc.gov/coronavirus/2019-ncov/index.html>) at all times while visiting the campus. We ask all students and employees to cooperate in taking steps to reduce the transmission of communicable diseases in the workplace.
